To access the Exhibitor Internet Wireless Service provided by Smart City Networks and the I-X Center, please follow these instructions:

1. With a WiFi enabled device, connect to the following network: **Exhibitor Internet**.*
2. Once connected to this network, **open up an Internet browser**.
3. You should be automatically redirected to the Exhibitor Internet splash page, regardless of what your homepage is set to.**
4. Click on the **GET CONNECTED** button.
5. If you don't already have an account, click on the **Create Account** button.
6. Once the account is created, you can choose to purchase Wi-Fi for one or multiple devices.

If you have any problems, please contact our helpdesk at (614) 827-2570.

*The wireless network inside the exhibit hall only operates on the 5 GHz spectrum. If you can only see the Exhibitor Internet wireless network on your device outside the exhibit halls then your device is not 5 GHz capable. Please call (614) 827-2570 if you are interested in purchasing a 5 GHz USB adapter.

**If you are not automatically redirected, check to see if you have http://about.blank or a corporate Intranet site set as your homepage. If you do, navigate your browser to any public site, such as http://www.smartcity.com, which should cause you to be redirected to the Exhibitor Internet splash page.

NOTE: Smart City Networks cannot guarantee the functionality of VPN client software with the Exhibitor Internet service.
