

# No Space? No Problem!

five professional  
tips for creating  
your personal  
garden paradise  
(size really  
doesn't matter)

## CREATE PRIVACY

Use plants, fencing, and  
other natural materials  
to make your small  
garden private without  
making it feel  
claustrophobic.

## REPETITION

Repetition of color and  
shape (whether it's the  
plants, their containers,  
or both!) will make even  
the smallest garden feel  
"designed".

## MAKE IT PERSONAL

Don't be afraid to show  
off your sense of humor,  
color, and style.

## ENJOY YOUR SPACE

Don't forget to put down  
the trowel, pour yourself a  
beverage, and enjoy your  
garden space, no matter  
what size it is.

## MAKE VIGNETTES

Small, perfect  
vignettes create the  
illusion of different  
garden rooms without  
taking up lots of  
space.
