GUEST SERVICES

PACKAGE CHECK

Hands full? The Show operates a free Package Check station as a convenience to attendees. At the Package Check you can drop off your plants and other purchases, then continue shopping, attend seminars or visit other parts of the Show! It is located on the SkyBridge.

LOST & FOUND

Lost and Found is located in the Show Office Room 401. Info booth personnel can direct you to the Show Office or call (206) 620-0938 and our staff will help you locate your lost item.

FREE USDA INSPECTION

Heading to and from Canada? We offer FREE Washington State Department of Agriculture Phytosanitary Inspection Certification if you buy any plants and/or bulbs at the Northwest Flower & Garden Festival!

Almost all nursery vendors selling plants at the Festival have been pre-certified by the WA State Department of Agriculture. After you have purchased your plants, take them to the WSDA booth - #2517. Daily hours are 10 AM – 5 PM Wed-Sat and 10 AM – 4 PM Sunday.

SHOW STAFF

The Northwest Flower & Garden Festival is an event that takes a full year to execute. Without the hard work of the following people, this show wouldn't blossom into reality.

Jeff Swenson - Show Manager
Jill Kivett - Regional Vice Pres. | Sponsorship
Lloyd Glasscock - Gardens Coordinator
Janet Endsley - Seminar & Judging Manager
Michelle Derbes - Show Coordinator
Greenane Davison - Exhibit Sales
Brian Faker - Temporary Staff Coordinator
Matt McClane - Production Staff Coordinator

SHOW FEATURES

THE GARDENS

Each year, inspired and innovative Garden Creators from around the Pacific Northwest put their heart and soul into crafting showstopping garden displays. These temporary and stunning works of art, constructed in under 72 hours on the show floor with over 30,000 forced plants and blooming flowers, are the cornerstone of what makes the Northwest Flower & Garden Festival a world-renowned source of garden design experience and innovation.

This year's Garden Creators are the best of the best exploring intriguing themes such as Yellowstone country cabins, stunning sustainably made structures, edible botanicals, and of course, PNW nature and lifestyle.

CITY LIVING

For urbanites, finding ways to maximize limited outdoor space is crucial to creating a functional environment for relaxing, entertaining and connecting with nature. Under the Skybridge's natural light, stunning displays provide numerous ideas and a wealth of inspiration for those looking to incorporate greenery, edible plants, elegant designs and more into their small space. With more City Living vignettes than ever before, what better way to explore garden spaces than in the heart of downtown Seattle!?

MARKETPLACE

With the festival's largest plant market yet, the marketplace is a spectacular shopping opportunity for one-of-a-kind gift items, must-have plants, and treasures waiting to be found. With finds like specialty seeds, artisan gourmet foods, hand-crafted art, jewelry and furniture, vintage and trending garden and home accessories, there is something for everyone. New to 2023's show, a selection of exotic, tropical houseplants from around the world unavailable anywhere else in the US will be onsite to purchase.

PLANTS, PLANTS, PLANTS

Over 50 nurseries, garden centers, specialty plant shops and growers from Washington, Oregon and California present more plant varieties than ever before featured at the festival. You'll find rare and exotic houseplants, air plants, bulbs and seeds, specialty growers, terrariums, vegetable starts, shrubs and trees, bonsai and so much more.

CONTAINER WARS

Seattle's beloved gardening columnist and television host Marianne Binetti returns as emcee for this popular annual competition. A first-hand look at container creation and curation, gardening experts go head-to-head to create beautiful and practical containers for potted plants. Presented by Corona Tools, Sunnyside Nursery and Gardener's Supply, think of Container Wars as part masterclass in creative yet functional potting containers, part seeds of inspiration while indulging a love of competition. Return every day of the show for new expert competitors! We hope you can "contain" your excitement.

BLOOMS & BUBBLES

Grab a friend and your creative side to join us for a workshop designing your very own tabletop floral centerpiece to take home! Sponsored by Slow Flowers Society, sip on champagne as a floral design expert leads you through a hands-on class to create your own inspired creation. With workshops ranging from an integration of cut and live plants to a romantic placement sure to be the showstopper of your next dinner party tablescape, learn from a pro and tap into your floral muse.

SEMINARS

60+ speakers and stars of the gardening world both local and international will appear at the festival bringing an infinite amount of knowledge and passion for gardening to Seattle. Mingle with acclaimed experts as they answer questions and share exclusive tips for designing luscious outdoor living spaces to fit any lifestyle and skill level. Northwest Flower & Garden Festival's seminars cover everything from building resilience and sustainability in the garden to prepare for climate change, growing edibles for food and health, gardening for pollinators and wildlife, and design and plant tips galore.

CONTAINER WARS

READY, SET, GO: CONTAINER WARS RETURNS FOR RIVETING BATTLES AT THE FESTIVAL

Container Wars is back to provide a first-hand look at container creation and curation! Gardening experts will go head-to-head to create beautiful and practical containers, suitable for any level of gardener. Sponsored by Corona Tools, Gardener's Supply Company, and Sunnyside Nursery, these entertaining competitions will take place each day of the Festival on the Main Stage in the North Hall.

Whether you're looking for inspiration for your next container or just want to feed your love for competition, make sure to visit the Main Stage from 11:30 AM to 12:30 PM - we hope you can "contain" your excitement! Seattle's beloved gardening columnist and television host Marianne Binetti is back as emcee.

WEDNESDAY

SHOW JUDGES

Arit Anderson

BBC 'Gardeners World' presenter and co-founder, Sustainable Landscape Foundation

Arit Anderson is a garden and landscaper designer, writer, podcaster and TV presenter. She spent 25 years working in the dynamic industries of retail fashion and creative events, she balanced this fast-paced career with personal interests in well-being, working as a part-time therapist in London and teaching holistic therapies. It was the joy of having her own garden in 2010 that enabled Arit to diversify her creative experiences. She found that the visual nature of fashion and the healing properties of her therapies could beautifully meld in the garden. From the first season of her garden's development Arit knew she wanted horticulture to become her work as well as her pleasure. She studied garden design at Capel Manor College and whilst there had the taste of success at RHS Chelsea 2013 winning the Fresh Talent category for a student design collaboration with two other students. Arit went on to design and deliver her own show garden and won a Gold Medal at RHS Hampton Court in 2016 in the conceptual category. The garden was televised and its message on climate change and the environment is now at the heart of Arit's work. In her designs for both private and commercial clients her ethos includes simplicity and environmental sensitivity. This was more recently demonstrated in the 2021 Chelsea Show Garden she was commissioned to do for the Royal Horticultural Society. Arit is a Chartered Member of the Landscape Institute, Trustee for the National Garden Scheme, RHS Ambassador for the Environment and Community, and co-founder of the Sustainable Landscape Foundation. Working as presenter for Gardeners World and writing for national publications has enabled Arit to publicize issues about the future of gardening in an ever-changing climate, and promote solutions to the wider public.

Arit Anderson's appearance sponsored by the Northwest Horticultural Society

Danilo Maffei, CPLD, PCH, FAPLD

Founding principal, Maffei Landscape Design

Danilo Maffei is the founding principal of Maffei Landscape Design, LLC in Kennett Square, Pennsylvania, a small firm specializing in creating outdoor living environments in residential, hospitality, commercial and public landscape sectors. His firm aspires to create meaningful, engaging, site-specific gardens, with an emphasis on plant selections that complement the natural and built environment. With a background in design, public horticulture, landscape contracting, business and civic leadership, he brings to each project a positive and practical perspective on the way gardens enrich our experience and engagement with people and places. His philosophy; gather experiences, not things. Objects alone do not make a garden better. Rather, it is the opportunity for people to meaningfully engage with the outdoors in all of its ephemerality and seasonal transformations that truly elevates the garden from merely functional to truly sublime. In addition to his duties as the leader of his firm, Mr. Maffei is a regular instructor and lecturer in landscape design, a community leader in both volunteer and elected positions and past president of the board of directors of the Association of Professional Landscape Designers (APLD), where he was honored as a Fellow.

Danilo Maffei's appearance sponsored by the Bellevue Botanical Garden Society

Ross Bayton, PhD

Director, Heronswood Gardens and author, The Gardener's Botanical: An Encyclopedia of Latin Plant Names

London-born botanist and gardener Dr. Ross Bayton gained his PhD at the Royal Botanic Gardens, Kew, studying the classification of tropical palms. He's the author of several books on horticulture including New Trees: Introductions to Cultivation (with John Grimshaw), Plant Families: A Guide for Gardeners and Botanists (with Simon Maughan), and most recently The Gardener's Botanical: An Encyclopedia of Latin Plant Names, as featured in the New York Times. Formerly the Gardening Editor of the UK's best-selling gardening periodical, BBC Gardeners' World Magazine, he is now the Director of the world-renowned Heronswood Garden in Kingston, WA, and is developing a 5-acre garden at home in nearby Bremerton.

Ross Bayton's appearance sponsored by the WSU Extension Master Gardener Program

SEMINAR SCHEDULE

WEDNESDAY, FEBRUARY 15, 2023

RAINIER ROOM All seminars 60 minutes, except Garden 101

- 10:00 AM** **Nature as Nurture: Can Gardens Heal the World?**

Many thanks to University Book Store—Seattle's original bookstore—for operating the festival's Book Signing Station. Support the independent bookstore that supports the Festival!

**ALL SEMINARS ARE FREE WITH YOUR TICKET!
SEE ONE OR SEE THEM ALL!**

 Book signing following seminar All seminars 60 minutes unless noted
Seminar schedule subject to change. See [gardenshow.com](#) for current schedule.

Just like your garden, a good bookstore takes years of love and hard work to grow

Because of customers like you, University Book Store has the great honor and privilege of prioritizing our community over profit, as we've done for 123 years.

Visit University Book Store in The Conference Center near the seminars for authors, signed books, and more.

MARKETPLACE

With the festival's largest plant market yet, the marketplace is a spectacular shopping opportunity for one-of-a-kind gift items, must-have plants, and treasures waiting to be found. With finds like specialty seeds, artisan gourmet foods, hand-crafted art, jewelry and furniture, vintage and trending garden and home accessories, there is something for everyone. New to 2023's show, a selection of exotic, tropical houseplants from around the world unavailable anywhere else in the US will be onsite to purchase.

From experienced horticulturists to urban plant parents and everyone in between, there are thousands of gems waiting to be unearthed and bucket-list plants available to take home all from the Northwest Flower & Garden Festivals' Marketplace.

PLANT MARKET HIGHLIGHTS:

Over 50 nurseries, garden centers, specialty plant shops and growers from Washington, Oregon and California present more plant varieties than ever before featured at the festival. You'll find rare and exotic houseplants, air plants, bulbs and seeds, specialty growers, terrariums, vegetable starts, shrubs and trees, bonsai and so much more.

In a plant shopping experience unlike any other, explore local favorites and show newcomers like Peace Love & Happiness Club, a Seattle plant store specializing in tropical houseplants. The organization brings a unique offering of exotic plants to the show. For cacti and succulent lovers, don't miss Rita Lee's Nursery for high-quality, healthy plants from a family-owned and operated company.

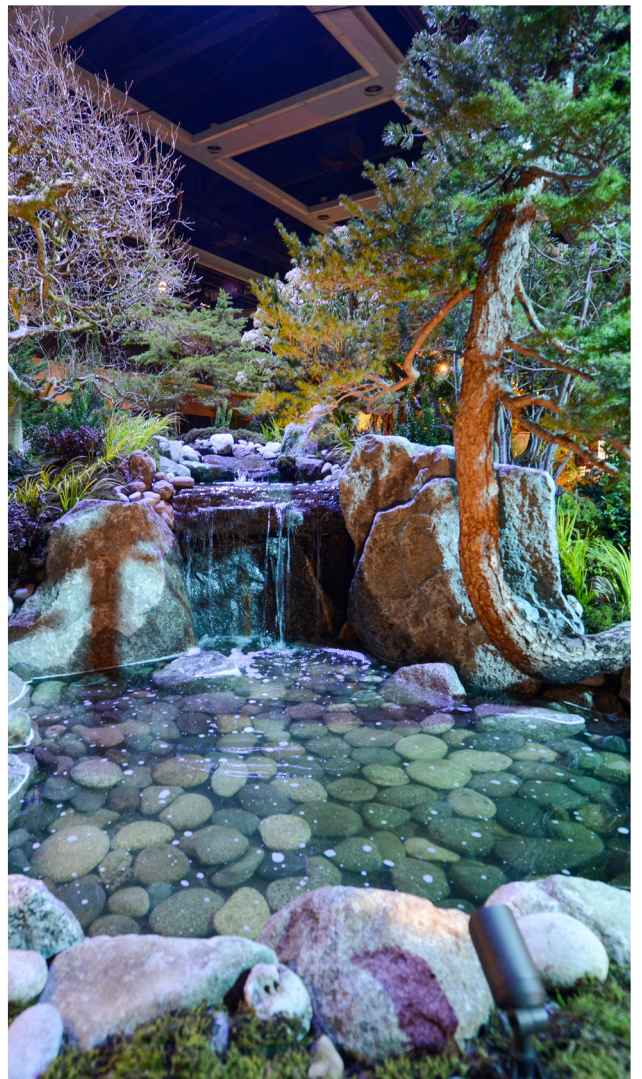

If outdoor plants are more your thing and you're looking to flex your green thumb, don't miss Deep Harvest Farm's offering a wide range of Certified Organic, Open-Pollinated and Non-GMO seeds, all proven to thrive in the Pacific Northwest.

EXHIBITOR HIGHLIGHTS:

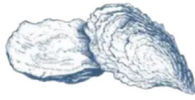

For nature enthusiasts who want to bring Earth elements into their wellness routine without caring for plants, discover Olander Earthworks, a family-owned studio of artists who are dedicated to bringing creativity to the community with our interactive, customizable multisensory art. A Stone's Throw Jewelry uses elements from the Earth – high-quality metals and gemstones – to create wearable art that can be kept close to your heart. The local company also gives a portion of all sales to non-profits that support women, children, refugees, and racial justice.

To outfit your home in the latest modern or vintage home decor and furniture, don't miss Foothills Family Furniture, Rustin' Relics, Details Home & Garden and many, many more!

If edible goods are what you seek, Rosamae Seasonings' luxury soul food products will enhance and simplify your favorite dishes and guide you to explore new favorites. Be sure to pop by Pinckney Cookie Café to taste your new favorite baked goods – they even have vegan and gluten-free varieties.

GARDEN CREATORS

Each year inspired and innovative Garden Creators from around the Pacific Northwest put their heart and soul into crafting showstopping garden displays. These temporary and stunning works of art, constructed in under 72 hours on the show floor with over 30,000 forced plants and blooming flowers, are the cornerstone of what makes the Northwest Flower & Garden Festival a world-renowned source of garden design experience and innovation.

Stroll through the Gardens on the main show floor to imagine their beauty in your own outdoor space and for the ultimate backdrops for show selfies, as they evoke “Spring Vibes Only”!

CITY LIVING

Proudly sponsored by:

For urbanites, finding ways to maximize limited outdoor space is crucial to creating a functional environment for relaxing, entertaining, and connecting with nature. Under the Skybridge's natural light, stunning displays provide numerous ideas and a wealth of inspiration for those looking to incorporate greenery, edible plants, elegant designs and more into their small space. With more City Living vignettes than ever before, what better way to explore garden spaces than in the heart of downtown Seattle!?

ZENITH HOLLAND NURSERY

zenithholland.com

Designed by:

**JENNIFER GAIKOWSKI AND LYN
ROBINSON**
jennifer@zenithholland.com
lyn@zenithholland.com

A smiling man with grey hair, wearing a plaid shirt, stands in a lush garden. He is holding a pair of pruning shears in his right hand and a basket of vegetables in his left. Behind him are several raised garden beds filled with various plants, including leafy greens and tomatoes. A wire mesh cage is visible on the left side of the frame.

Joe Lamp'I - Horticulturist,
Television and Podcast Host

QUALITY IS IN OUR NATURE.

Every Corona tool serves one purpose - connecting us to nature. It rejuvenates us and makes our world a better place, and it's what we think about every day when developing tools that help create your vision. Whether it's maintaining a beautiful outdoor space or planting the seeds that will grow the food that graces your table, simple pleasures feed our souls. It's our mission to make the best quality tools with lasting comfort, durability, and that are easy to use, while providing the professional results you rely on, season after season.

CORONA®
