

Our names are Jennifer & Stasha, and we are the owners of a mobile plant nursery based out of New Braunfels, TX. We have a true passion for plants and what they do for our customers. Whether they are giving our plants as a gift, or keeping it for themselves, we are here to provide the best possible buying experience while building a relationship that will keep them coming back. Our mission is to guide our customers in finding the right plant for their living space, regardless of experience level and help with continued success.

We are both single mothers of two beautiful children, Kaylee (Jenn's daughter) and Leanna (Stasha's daughter). Everything we do is for them and because of them. Building a legacy that can be passed down to the next generation is one of our main goals. Our daughters are sisters, and they are very close. They do everything and anything they can together. Both girls have a passion for competitive cheer, love to go on adventures, and are very artistic. Our personal stories are lengthy and while we didn't initially choose to be in each other's lives, it has been the ultimate blessing in disguise. A seemingly awkward and tough situation has resulted in the best friendship that we could have never imagined. Together, we are building a family, a business, and a legacy.

Before the pandemic started, we were already in the early stages of the "plant addiction" and would

use plants to spruce up our home/ office space. In March 2020, Covid-19 became a major problem

and the pandemic really started to impact our daily lives. We were both sent to work from home from our fulltime jobs and no longer had the need to travel to and from work, resulting in a need for something to keep us sane during our newfound free time. Plants quickly became our passion and since it's a passion that we both shared, we decided to turn it into a business. On our first day, we set up a tent with some tables and plants in front of Jenn's house and we had a better turnout than we could have imagined.

We are seeking a brick and mortar store, in the right location for us and the customers! We have a true passion for indoor plants, plant care, and knowledge to pass on to anyone that will listen!
