Acceptable File Formats For Artwork

Vectorized Artwork – is the preferred format for artwork containing logos and fonts because it allows for exact reproduction without any loss of quality. These files are commonly produced with programs such as Adobe Illustrator or Corel Draw. Common file extensions for Vectorized artwork are: .eps, .pdf, .ai or .cdr

Rasterized Artwork – is the preferred choice for photo reproduction. Raster images can be resized only with the amount of information contained within the image. Higher resolution images will scale up better than low resolution images. **To prevent unsatisfactory results, Hale Northeastern, will not use web images for reproduction on signage.** Common file extensions for rasterized images are: .psd, .tif, .jpg (although .eps and .pdf can also contain raster images)

Please note, .eps and .pdf can also contain raster images as well (less preferred).

If you need a quote for specific services or would like to speak with one of our graphic artists, please call us at 800-333-4253 and ask for the Sign Department
