**LIGHTING (Price Includes Power & Labour for Installation)\***

Double Light Stand (LED) (40-19-132)	_____	_____	\$90.75	\$127.05 = \$	_____
Power Strip (40-30-5)	_____	_____	\$30.00	\$42.00 = \$	_____
Extension Cord (40-30-15)	_____	_____	\$30.00	\$42.00 = \$	_____

\* For double light stands, price includes installation along the side rails of an inline booth. Placement elsewhere will require additional labour and materials. Please contact Freeman for estimated charges.

**ADDITIONAL INFORMATION**

**FOR ADVANCE PAYMENT PRICE**

Your order with full payment along with a floor plan indicating main power location and distribution points, if applicable, must be received prior to:

**DEADLINE DATE OF:  
MARCH 4, 2020**

**MULTIPLE OUTLET LOCATIONS**

A scaled floor plan is required for orders with multiple outlet locations and/or island booths. Detailed examples are provided on the following page. If a power location or main drop is not provided prior to show move-in, a location will be determined by Freeman in order to maintain delivery schedules. Relocation of the service will be charged on a time and material basis.

**INLINE AND PENINSULA BOOTHS**

Power will be placed in the back of the booth unless otherwise specified.

**POSITIONING FLOOR WORK (Installation & Dismantle)**

If power is to be installed anywhere other than along the back drape of the booth or if power is to be installed under the carpet, there is a charge of \$65 for straight time (\$90 for overtime) per location drop

**24 HOUR SERVICES**

If an uninterrupted power supply is required for the full duration of the show, please order 24 hour power. Electricity is turned on 30 minutes prior to show opening and turned off 30 minutes after show closes on show days. Power will be turned off immediately after final show closing. If you require power outside actual show hours, special arrangements should be made in advance. Additional charges may apply.

**EUROPEAN EQUIPMENT**

Please inform us if you are using European equipment and supply technical sheets

**CANCELLATION**

A 50% refund will be applied to electrical services cancelled after installation. Refunds will not be issued for materials and/or labour charges related to the installation.

**OVERHEAD POWER**

If you require your power from overhead, additional materials and labour may be incurred. Please contact [freemanottawaES@freemano.com](mailto:freemanottawaES@freemano.com).

**TOTAL**

Subtotal + 13% HST = Total

## ELECTRICAL INSTRUCTIONS

### HOW TO DETERMINE ELECTRICAL REQUIREMENTS

#### For Equipment

All electrical equipment is stamped or labeled with electrical ratings usually found on the back or bottom of the equipment. Verify voltage and either amperage or wattage from the information provided. Standard office and household items operate on 110/120 volt power. Machinery and equipment typically require 208 or 480 volt power.

#### For Lighting

Verify the wattage of the bulbs in the lights and multiply by the number of bulbs/lights.

### LOCATION OF POWER IN YOUR BOOTH

#### In-Line and Peninsula Booths

Power will be installed in one location, typically on the floor somewhere along the back of the booth, as indicated in the following diagrams: (We cannot guarantee that the outlet will be specifically located in the middle.)

IN-LINE BOOTHS / PENINSULA

BACK TO BACK PENINSULA

If power is required in locations other than indicated above, secondary distribution will be required and billed on a time and material basis. Please complete and submit an Electrical Labour Order Form with your power order, along with a floor plan as described below.

#### Island Booths/Multiple Outlets

Floor plans are always required for Island Booths and orders for multiple outlet locations. The floor plan must indicate booth dimensions, surrounding booth numbers for orientation within the facility, each outlet location, required wattage or amperage and location for main drop. If power location in an island booth is not provided prior to show move-in, a location will be determined by Freeman in order to maintain delivery schedules. Relocation of the service will be charged on a time and material basis. See examples below: A grid is available at [freemanco.com](http://freemanco.com) to print as a base layout.

Island Booth with one outlet

10 X 20 Booth with multiple outlets  
Labour Required

#### OTHER:

1. Labour is required for any and all electrical work over and above the installation of the main power drop. Please see the Electrical Labour form for complete details. Please complete the labour order form.
2. Dismantle labour will be automatically charged at 50% of the installation time and rounded to the nearest half hour.
3. All material and equipment provided by Freeman is for rental purposes only and remains the property of Freeman. All equipment will be removed at the close of the show by Freeman.
4. All equipment regardless of power source, must comply with Federal, State and local codes. Freeman reserves the right to inspect all electrical devices and connections to ensure compliance with all codes. Freeman is required to refuse connections where the exhibitor wiring is not in accordance with local electrical code.
5. Standard wall and other permanent building utility outlets or sockets are not part of booth space and may not be used by exhibitors unless electrical services have been ordered.
6. Exhibitors' cords must be a minimum of 14 gauge 3 wire with ground and must be flat when used for floorwork. All multi-outlet devices (eg - power strips) must have circuit protection. All exposed non-current carrying metal parts of fixed equipment, which are liable to be energized, shall be grounded.
7. Exhibitors' equipment will be modified to conform to Freeman receptacles. Labour and materials to install or change a cord cap will be billed on a time and material basis.
8. Exhibitors with hardwall displays must arrange for power to be installed inside the booth or provide access.
9. Power sharing is not permitted between exhibitors.
